Even in New York City, where I live, hotels are a happily unavoidable part of my life. This morning I started out at 8:30 a.m. at the Lambs Club, Geoffrey Zakarian’s restaurant in the Chatwal Hotel, which along with Sirio’s at the Pierre is one of my frequent haunts for breakfast meetings. My haircuts take place at the Carlyle, where I visit Yves Durif’s salon each month; and weekdays you would find me in the Loews Regency gym by 7 a.m., until the hotel closed for renovation in December; it will reopen in the fall with a gym for guests only.

Putting together of the SWEET TRAVEL annual Hotels Issue is

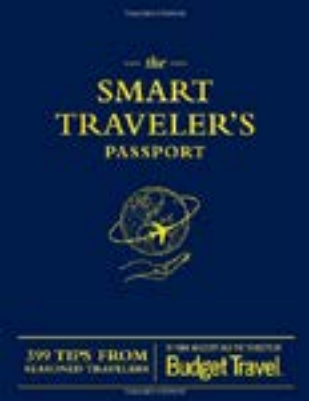

a campaign played out on many fronts, with scores of meetings among our editors and reviewers to sort out lineups and contenders for our annual It List of the best new properties. This month’s cover article, by writer Alexandra Wolfe, presents the 21st-century haute-luxury incarnation of Puerto Rico’s legendary Dorado Beach Hotel, from the original private landing strip to the beige-toned bungalows with plunge pools and the winding cupey-village on the coast of Cornwall, England, where palm trees long ago imported from China mingle with pastel-painted cottages and ivy-covered buildings with for a cooking class with Chris Eddy, the chef at Winvian, a Relais & Châteaux hideaway in Morris, Connecticut. The subject this time was roast chicken and sides, from mushrooms and cauliflower to rutabaga, and one of the best parts of it all was lunch in the dining room, feeling like a guest, within easy distance of where I spend weekends—when I’m not on the road.

University of Miami. Sebastina the IbisOctober 5, 2013 at Sun Life Stadium in Miami

UNIVERSITY OF MIAMI

One of the most beautiful university campus

University of Miami is a private institution that was founded in 1925. It has a total undergraduate enrollment of 11,380, its setting is suburban, and the campus size is 239 acres. It utilizes a semester-based academic calendar. University of Miami's ranking in the 2015 edition of Best Colleges is National Universities, 48. Its tuition and fees are \$44,350 (2014-15).

Located in Southern Florida, the University of Miami has an ideal location for students who love the outdoors. With popular spots like South Beach, the Florida Keys and Everglades Na-

tional Park nearby, students have plenty of opportunities for water sports, hiking and sunbathing. Downtown Miami, also near to the school, is a thriving sports and cultural center. On campus, more than 2,400 students are involved in more than 30 fraternities and sororities. Students can also choose from more than 250 clubs and organizations to join. Freshmen are not required to live on campus, but many opt to live in the school's five residential colleges. The communities, modeled after housing at England's Oxford and Cambridge universities, combine living and learning with group meals, poetry readings, sports and more.

For students who do not live in university housing, the Commuter Assistant Program pairs freshmen with an on-campus representative to help ease the transition into college. University of Miami Division I sports teams are known as the Hurricanes and compete in the Coastal Division of the Atlantic Coast Conference. The school's mascot is Sebastian the Ibis, a species of marsh bird that is known for weathering tropical storms.

The University of Miami is known as a research institution, Annual campus events include the Canes Film Festival, which showcases student-produced movies, and Sportsfest, three days of competition between residence hall teams. Boat of the University of Miami include actor Sylvester Stallone and entertainer Gloria Estefan. Story by Qi Huang

Stone crab claws at Joe's Seafood

5 BEST RESTAURANTS for *Stone Crab*

Ready, set... devour! Starting this month and lasting until May, the stone crab season is off and running. The crustaceans' claws are harvested in Florida waters and delivered fresh to many local restaurants. Whether you favor dining on white tablecloths or at a hole-in-the-wall shop, these sweet, chilled crab limbs are every foodie's backwaterdream. Here is a look at some of Miami's best spots for this local delicacy.

The Granddaddy of Claws

Joe's Stone Crab has become the unofficial institution for stone crabs and has served everyone from beach locals to Bill Clinton, Frank Sinatra, and Muhammad Ali. "What sets us apart from other stone crab eateries is our authenticity," says COO and co-owner Steve Sawitz. The claws are still prepared the same way that Sawitz's great-grand father and restaurant founder Joe Weiss devised how to serve them 93 years ago. 11 Washington Ave., Miami Beach, whshod blachsio haj hsjh dj alnsjn djsln jsln daslnd fsd fsdf dsfd, 305-673-0365

Luck of Brickell

"We bring our stone crabs straight from our own fisheries," says Truluck's manager, Kim Vazquez. Every Monday during stone crab season, you can enjoy all-you-can-eat stone crabs for \$99. Add some live music and fine-dining service, and you've got yourself a winning recipe.

George Stone Crab claws at My Ceviche.

Monty's is one of the only restaurants to serve crab claws year-round. "When Florida crabs go out of season in May, we import fresh crab claws from the New England coast called Jonah crab claws," says general manager Laurie Powell. We recommend hitting the raw bar happy hour between 4 and 8 pm for lively waterside dining along with a pile of fresh claws. 2550 S. Bayshore Dr., Coconut Grove, 305-856-3992

King George

Consider George Stone Crab "stone crabs of and on wheels." Founder and President Roger Duarte (who also owns My Ceviche, 1250 S. Miami Ave., Miami, 305-960-7825) left a high-profile job as an investment banker and started the company by delivering fresh stone

crab to his neighbors in Key Biscayne. delivery straight from the ocean to your door in 24 hours," notes George's Duarte's mother is responsible for the nowfamous mustard sauce. 800-273-2722

Dock to Dish

Get as dirty as you like while you munch on those stone crabs, because Garcia's Seafood Grille & Fish Mkt is all about fresh seafood and no frills. Located along the Miami River, Garcia's stone crabs are straight off its own fishing boats. "We don't freeze our claws, and we serve them fresh because that's what the customers like," says manager Juan Muchotrigio. 3 Things for Families to Do in Key West

Located closer to Cuba than to Miami, Key West is Florida's irreverent southernmost subtropical paradise, a unique confluence of history, climate, natural beauty, cultural diversity, architecture and unabashed romantic appeal.

Reef & Ritass Afternoon Snorkeling

Key West Diving and Snorkeling

Experience the stunning underwater world of diving in Key West. The blue waters surrounding the Southernmost City offer world-class wreck diving. On May 27, 2009, the U.S.N.S. Gen. Hoyt S. Vandenberg intentionally sunk to create an artificial reef in 140 feet of water, seven miles off Key West. The Vandenberg is the second largest ship purposely sunk as an artificial reef. It is now the southern anchor of the Florida Keys Shipwreck Trail. Learn more about diving the Vandenberg!

The Cayman Salvager was a 180-foot buoy tender and was intentionally sunk in 1985 to make an artificial reef. She is sitting upright and has cavernous open holds providing shelter for some large marine life. Joe’s Tug is a classic tugboat that sits upright in 65 feet of water. Major certifications are accepted by the local dive shops, but be sure to bring your card with you. There are several charters that cater to scuba divers only, and many that take both divers and snorkelers. Nitrox diving, and instruction, are also available in the area.Certification courses and resort courses can be scheduled in many locations.

Both SCUBA divers and snorkelers find that the primary destination for an excursion around Key West is Sand Key Lighthouse Reef. Ten-Fathom Ledge is known for its caves and dramatic overhangs that provide shelter for all kinds of marine life, including lobsters and grouper. Kedge Ledge is a patch reef whose main attraction is the remains of a pair of coral-encrusted anchors from 18th century sailing vessels.Looe Key Reef Marine Sanctuary, a large “groove and spur” reef, is located only 30 miles offshore of Big Pine The Atocha, discovered by Mel Fisher off the Marquesas Keys, is in a different category from the rest. Mel searched for this Spanish wreck for years and when his team finally found it, they brought up a fortune in gold, silver and jewels that was beyond imagination. Unfortunately, this wreck is not available to thevisiting diver.Get started planning your Key West diving or snorkeling adventure today.

Key West Fishing Charters

Key West and the Florida Keys: to the sportsman, just the mere mention conjures up images of yesteryear’s Hemingway battling giant Blue Marlin. Or, today’s angler may envision competing with behemoth Tarpon as they explode from the water in giant leaps. Ask any knowledgeable fisherman for his “short list” of world-class fishing destinations, and Key West will be at the top of that list, and for good reason.

No other location on the planet offers as many options for sport fishing. From the blue waters offshore to the natural reef and abundant shipwrecks in the Atlantic Ocean and the Gulf of Mexico, hundreds of species roam. Whether you choose Key West deep sea fishing experienced from a fighting chair aboard a large salon boat with heavy action gear, or Key West light tackle offshore fishing from state-of-the-art center console vessels, Marlin, Sailfish, Dolphin, Tuna, Kingfish, Wahoo and others become your deep water adversaries.

At the opposite end of the angler’s spectrum are our shallows, which span limitless remote and distant fishing grounds. In Key West flats fishing, stealth replaces brute force and meager inches of water separate angler from trophy. The fabled Key West “flats” are home to the “Grey Ghost” Bonefish and elusive Permit. This is a liquid world with no sides - only shadows, slants and angles.

When speaking of “Back Country” one may be referring to a form of light tackle fishing or a location in which to fish near Key West. protected waters at our door step, the angler can explore a vast environment without footprints. Key West backcountry fishing offers a view of nature at its finest. Witness the abundant marine life, sea birds and flora & fauna, which leave an undeniable mark on the soul.

Key West Marina and Boating

It is difficult to think that someone could watch the sunset on the beautiful, serene waters surrounding Key West without wanting to get closer. Whether for a ride to the tropical reefs offshore, a sports fishing charter into the Straits of Florida or the Gulf of Mexico, a daytime or sunset cruise aboard a catamaran or tall ship, a nature tour of the backcountry flats, or an excursion to Fort Jefferson in the Dry Tortugas, this is the place to be. You can privately charter your craft, join a small group, or sign on with a large group ... whatever you choose. Get your boating vacation started by contacting one of these Key West marinas. If you go it alone, make sure you know the waters, and take a chart with marked channels and depths. To a newcomer, navigation through the backcountry can be very difficult. Tidal channels are not well marked and depths are difficult to determine for the inexperienced visitor. Because this is such a wide-open area in many places, there is a tendency to run at high speeds. This could be disastrous; you could run aground as it is very easy to be mistaken about depths. The entire area of the Florida Keys is a National Marine

SOUTH BEACH

Family travel, a great vacation for kids Beautiful Maimi Beach

Story by Joe Shi

South Beach, also nicknamed SoBe. South Beach occupies one of the best, highly sought-after, beach front locations on Earth between the Atlantic Ocean and Biscayne Bay. South Beach is more of an experience than just a place to be in. Visitors enjoy the breathtaking Ocean Drive Atlantic coastline of several public access beaches. The area has gone through numerous artificial and natural changes over the years, including a booming regional economy, increased tourism, and the 1926 hurricane, which destroyed much of the area.

South Beach by Martin

South Beach started as farmland. In 1870, Henry and Charles Lum purchased 165 acres (67 ha) for coconut fing. Charles Lum built the first house on the beach in 1886. In 1894, the Lum brothers left the island, leaving control of the plantation to John Collins, who came to South Beach two years later to survey the land. He used the land for farming purposes, discovering fresh water and extending his parcel from 14th Street to 67th in 1907.

In 1912, Miami busine the mus Brquired 400 acres (160 ha) of Collins’ land in an effort to build an oceanfront city of modest single family residences. In 1913 Collins started construction of a bridge from Miami to Miami Beach. Although some local residents invested in the bridge, Collins ran short of money before he could complete it.

Carl G. Fisher, a successful preneur who made lions in 1909 after selling a business to Union Carbide, came to the beach in 1913. His vision was to establish South Beach as a successful city independent of Miami. This was the same year that the restaurant Joe’s Stone Crab opened. Fisher loaned \$50,000 to Collins for his bridge, which was completed in June, 1913. The Collins Bridge was later replaced by the Venetian Causeway. On March 26, 1915, Collins, Lummus, and Fisher consolidated their efforts and incorporated the Town of Miami Beach. In 1920 the County Causeway (renamed MacArthur Causeway in 1942[4]) was completed.[5] The Lummus brothers sold their oceanfront property, between 6th and 14th Streets, to the city. To this day, this area is known as Lummus Park. In 1920, the Miami Beach land boom began. South Beach’s main streets (5th Street, Alton Road, Collins Avenue, Washington Avenue, and Ocean Drive)

In 1920, the Miami Beach land boom began. South Beach’s main streets (5th Street, Alton Road, Collins Avenue, Washington Avenue, and Ocean Drive) were all suitable for automobile traffic. The population was growing in the 1920s, and several millionaires such as Harvey Firestone, J.C. Penney, Harry C. Stutz,[6] Albert Champion, Frank Seiberling, and Rockwell LaGorce built homes on Miami Beach. President Warren G. Harding stayed at the Flamingo Hotel during this time, increasing interest in the area. In the 1930s, an architectural revolution came to South Beach, bringing Art Deco, Streamline Moderne, and Nautical Moderne architecture to the Beach. South Beach claims to be the world’s

typifies this activity. In of the angle of the mountain and sea addition, television show Miami Vice used South Beach as a backdrop for much of its filming because of the area’s raw and unique visual beauty. A somewhat recurring theme of early Miami Vice episodes was thugs and drug addicts barricading themselves in utterly run-down, almost ruin-like empty buildings. Only minor alterations had to be made for these scenes because many buildings in South Beach really were in such poor condition at the time.

While many of the unique Art Deco buildings, such as the New Yorker Hotel, were lost to developers in the years before 1980, the area was saved as a cohesive unit by Barbara Capitman and a group of activists who spearheaded the movement to place almost one square mile of South Beach on the National Register of Historic Places. The Miami Beach Architectural District was designated in 1979. Before the days of Miami Vice, South Beach was considered a very poor area with a very high rate of crime. Today, it is considered one of the wealthiest and most prosperous commercial areas on the beach. Despite this, poverty and crime still exist in some isolated places surrounding the area.

largest collection of Streamline Moderne Art Deco architecture, New Zealand, another notable Art Deco city, is architecturally comparable to Miami Beach as it was rebuilt in the Zigurat Art Deco style after being destroyed by an earthquake in 1931. By 1940, the beach had a population of 28,000. After the September 7, 1941 attack on Pearl Harbor, the Army Air Corps took command over Miami Beach. [citation needed] That year, tourism brought almost two million people to South Beach.

In 1964, South Beach became even more famous when it was featured in the Jackie Gleason Show. The show brought his weekly variety series to the area for taping, a rarity in the industry. Ginning in the mid 1960s and continuing through the 1980s, South Beach was used as a filming location for most of its ocean hotels and apartment buildings filled with elderly people living on small, fixed incomes. This period also saw the introduction of the “cocaine cowboys,” drug dealers who used the area as a base for their illicit drug activities. Scarface, released in 1983,

The one reason for choosing Cadillac that nobody talks about.

A lot of people will give you a lot of convincing reasons for buying a Cadillac. They talk about the way it looks and rides. About performance. About value—that Cadillac resale value is traditionally the highest of any car built in the land. Good reasons all. Yet, there is another. And though it isn't

talked about much, it's no less real. Call it reliability. Peace of mind. That feeling of confidence in knowing you are driving the car of cars. Your authorized Cadillac dealer invites you to experience the feeling for yourself. It could be the most convincing reason of all.

Something else worth talking about. Seat belts. The evidence seems indisputable. Seat and shoulder belts save lives. Still, many people are not convinced—not enough to use them every time. You may be one. But what about your wife—or husband? Or your children? Don't you think there's good reason to remind them to buckle up? Cadillac Motor Car Division.
